### About NationalLED

We are a Houston-based, state-of-the-art commercial LED solutions company that helps your commercial business transition to LED lighting. Talk to one of our experts and start saving up to 80% on energy while improving your workplace and safety conditions.

### Why Choose Us

With industry-leading best practices and constant innovation, National LED has successfully completed thousands of installations across the country in multiple major cities. We've worked with some of the most successful companies in their industries – Mercedes-Benz, Coca-Cola, United Airlines, Berkshire Hathaway, and Honda. We consult with our clients to manage every lighting need from specialty designs to rebate submissions on remodels, retrofits and new builds.

## Six Pillars of Engineering

- **Mechanical:** Innovative designed and engineered
- **Optical:** Lenses produced to deliver and control light
- **Thermal:** Engineered to optimize lifetime and performance
- **Safety:** Designed to meet US LED and regulatory standards
- **Quality:** Produced using best-in-class components
- **Electrical:** Components chosen for performance and efficiency
